RE: Freedom of Information/Privacy Act Request No. 2008USMS11165

Dear Mr. Carlisle:

The United States Marshal Service (USMS) is responding to your request for inspections, audits, or reviews by the USMS upon the Daggett County, Utah Jail/Sheriff's Office.

Pursuant to your request, the USMS conducted a search of its files and located an inspection report, consisting of 12 pages, which is responsive to your request. We have determined to grant you access to this report, except for the number of security staffing and other internal information, and the name and telephone number of a government employee/law enforcement officer referenced therein, which are exempt from disclosure pursuant to exemptions 2, 6, and 7(C) of the Freedom of Information Act, 5 U.S.C. 552(b). Enclosed is a copy of this inspection report.

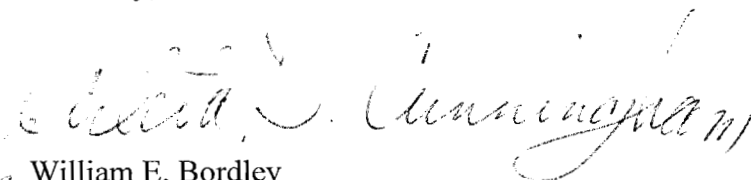

Exemption 2 permits an agency to withhold matter related solely to internal personnel rules and practices. The material withheld under this provision meets the test of "predominant internality," set forth in Crooker v. BATF, 670 F.2d 1051 (D.C. Cir. 1981). The information withheld under this provision pertains to measures to ensure safe and secure transportation and housing of prisoners. Disclosure of this information could impair the effectiveness of such measures and may endanger the safety of law enforcement personnel, prisoners, and members of the public. As such, disclosure would significantly impede effective operation of law enforcement efforts. Exemption 6 protects records or information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Exemption 7(C) protects records or information compiled for law enforcement purposes, to the extent that disclosure could reasonably be expected to constitute an unwarranted invasion of personal privacy. Therefore, it is not appropriate for discretionary release.

Mr. Nate Carlisle

If you are dissatisfied with my action on this request, you may appeal this partial denial within 60 days of the date of this letter by writing to the Director, Office of Information and Privacy, United States Department of Justice, Suite 11050, 1425 New York Avenue, NW, Washington, D.C. 20530-0001. Both the letter and the envelope should be clearly marked "Freedom of Information/ Privacy Act Appeal." In the event you are dissatisfied with the results of any such appeal, judicial review will thereafter be available to you in the United States District Court for the judicial district in which you reside or have your principal place of business, or in the District of Columbia.

If you have any questions, please contact Arleta D. Cunningham at (202) 307-9052 or the FOIA Service Center at (202) 307-9054.

Sincerely,

William E. Bordley
Associate General Counsel/FOIPA Officer

G. Visual Review of Facility:

Living Area Comments:

Areas had natural light and temperature was comfortable. Inmates had access to cold water and toilet. Inmates had an abundant amount of personal property in their cells. They are allowed to wear non uniform clothing while in the cells.

Day Room Comments:

Inmates had adequate room to read, watch tv, and eat. Each pod has satellite tv and microwave. Inmates have access to hot showers.

Kitchen Comments:

Kitchen is staffed by a private company. With the aid of inmate workers meals are prepared and then delivered to the pods by officers. There is no direct supervision by jail officers at this time. Culinary tools are in a lock box and given to the inmates for food prep. DUSM was informed that jail will be installing cords for knives at each food prep area. Meals were nutritious and varied according to religious and

medical needs. Food was properly stored and packaged. At time of inspection the kitchen was empty, it appeared very clean.

Medical Area Comments:

The medical unit is very small but adequate for size of facility. Doctor makes weekly visits and is on call 24/7. Sick call slips are easily obtained by inmates. Pill call is conducted at the medical unit. Jail request no major medical inmates because closest hospital is over an 1 hour away. Inmates inform DUSM that they are extremely happy with how their medical needs are being taken care off.

Recreation Area Comments:

Inmates have access to indoor rec and weather permitting outdoor rec. The indoor area has free weights, universal, and cardio equipment. The outdoor area allows inmates to get fresh air, play ball or just walk. Jail is currently working on changing the lock system going to the outdoor area. The locks will be changed to key locks with an electronic lock controlled by the control room at the emergency exit.

Visiting Room Comments:

Visiting area was clean and secure. Inmates are afforded lengthy visits due to travel time from Salt Lake Area.

Special Housing Comments:

Most cells designated for segregation are directly insight of main control. There is one cell that requires an officer to physically check the cell. [REDACTED] Inmates in special housing for medical or administrative reasons are allowed to library material/showers/and phones. Inmates there for punitive reasons have limited access to these items.

Other:

Laundry room detergent is accessible to inmates. DUSM recommends placing detergents in storage room off of laundry.

Library items (desks,computers,books,cabinets) are kept in the hallway off of the kitchen. This is a possible fire hazard if an emergency evacuation of the kitchen is needed.

H. Review of Confinement Conditions

Please list comments by section and confinement condition beginning with Section A.

(i.e. Section A, A-1: Facility does not:....)

A-1 After recent escape facility is diligently working on issues to comply w/ Utah DOC recommendations. They are creating written policy/standards to ensure that all staff has the most up to date information to comply with local/state/federal laws.

B-6 Currently staff is being verbally trained in suicide prevention but there is no written policy.

B-7 Staff is verbally trained in responding to a hunger strike but there is no written policy.

C-1 Staff is aware of their duties, responsibilities, and expectations but not all of the posts have written policy to ensure that each Officer has the same understanding.

C-2 Jail does not maintain historical records. They are currently in the process of setting up a data base to maintain permanent logs.

C-7 Although count is conducted 4x daily no written logs are kept. Inmates require more supervision in kitchen, movement throughout jail. (This is currently being addressed)

C-14 Emergency escape routes are posted, Officers/inmates need an emergency plan in writing,

F-3 Facility has cleaning products (clorox / detergents) easily accessible to inmates.

F-7 Facility has a lock box for culinary knives inmates have access to use them during food preparation times. Facility has plans to install cords connecting knives to table.

H-1 Facility conducts initial employment criminal history checks but does not obtain follow up checks. Sheriff agrees to do periodic criminal history checks on each employee.

ATTACHMENT 1

Purpose of the Conditions of Confinement Detention Standards and Monitoring Report

The core mission of the Conditions of Confinement program is to monitor non-federal facilities that hold USMS detainees to help ensure that these facilities:

- are safe,
- are humane,
- protect detainee statutory rights, and
- protect detainee constitutional rights.

Core Detention Standards

The Core Detention Standards were developed to ensure the safe and humane confinement of federal detainees and to uphold the protection of their statutory and constitutional rights. The 59 standards are divided into 9 sections by relevance. Each standard contains a title and defining statement. The 9 sections are:

- A. Administration/Management
- B. Health Care
- C. Security and Control
- D. Food and Service
- E. Staff/Detainee Communication
- F. Safety and Sanitation
- G. Services and Programs
- H. Workforce Integrity
- I. Detainee Discrimination

The reviewer should ask the appropriate questions and verify appropriate documentation while seeking out pertinent information for making assessments. For example, if a standard requires that the Facility Director provide adequate medical, dental, and mental health screenings as part of the intake process, the reviewer should detail what is generally included in a screening, and verify the 4 items listed below in determining if the standard is being met. Reviewer should verify that:

[
]

- Does a policy exist?
- Is the policy adequate?
- Is the policy being implemented successfully?

- Is the desired outcome being achieved?

Each Policy will be assessed for compliance using the following definitions:

- o Fully Compliant - Adequate policies, procedures, and processes are in place to achieve a standard.
- o Partially Compliant - Improvements are necessary, such as additional resources, policy clarifications, process or procedural changes, to fully achieve the standard.
- o Non Compliant - Adequate policies, procedures, and processes are either not in place or not working.
- o Not Applicable - Standard is not relevant for the facility.

General Guidance for Reviewers: Policy Communication and Review

1. Interview high-level staff to ask how policies and procedures are communicated to staff and detainees.
2. Verify that adequate information is actually available via some means of communication (e.g., policy manuals, orientation, procedures, or legal guidelines).
3. Check pre-service and in-service training curricula to determine the extent to which staff training addresses the relevant policies and procedures.
4. Interview random correctional staff and detainees to determine the extent of their familiarity with the relevant policies and procedures.
5. Review policies and procedures to determine whether there are any indications of regular (at least annual) review and revision.
6. Is the facility operating in accordance with local/state/federal standards, regulations, and laws.
7. Is the facility operating in accordance with standards and policies established by nationally recognized organizations such as ACA, AJA, NCCHC, OSHA, or NFPA.
