SUBJECT:

South Louisiana Correctional Center Annual Detention Review

The New Orleans Field Office, Office of Detention and Removal conducted a detention review of the South Louisiana Correctional Center on February 6-8, 2007. This review was conducted by Oakdale, LA Reviewer In-Charge and assisted by LA. This facility is used for detainees requiring housing over 72 hours.

#### Type of Review:

This review is a scheduled Operational Review to determine general compliance with established Immigration and Customs Enforcement (ICE) National Detention Standards. No prior reviews have been conducted at this facility.

#### **Review Summary:**

The facility was last inspected by the State of Louisiana in March of 2006 and received an acceptable rating. The American Correctional Association does not accredit this facility. No other inspections by State or local entities have occurred during the previous 12 months.

#### **Review Findings:**

The following information summarizes those standards <u>not</u> in compliance. Each standard is identified and a short summary provided regarding standards or procedures not currently in compliance.

Compliant - 36
Deficient - 0
At-Risk - 0
Non-Applicable - 2

Subject: Detention Review Chmary Report

Page 2

#### Standards Summary Findings:

No ICE Standards have been identified as overall deficient. A number of questions were not applicable because ICE detainees are not currently present at the facility.

#### **RIC Observations:**

The facility is well maintained, clean and would provide excellent bed space for the needs of ICE. The staff was knowledgeable within every standard and eager to produce any information needed.

#### **RIC Issues and Concerns**

Since this is an initial review, ICE detainees are not presently being housed at the facility; therefore no policies and procedures are in place that specifically addresses ICE. This is no fault on the facility. Prior to accepting ICE detainees, the facility will integrate those policies and procedures from another IGSA facility, Pine Prairie Correctional Center that is also being managed by Warden Copes. ICE will conduct a follow-up review.

#### Recommended Rating and Justification:

It is the Reviewer in Charge recommendation that the facility receive a rating of "Good". It is the recommendation of the RIC that no plan of action is required and this review should be closed.

#### **RIC Assurance Statement:**

All findings of this review have been documented on Form G-324A and are supported by the written documentation contained in the review file.

Comments: Since this is an initial review, ICE detainees are not presently being housed at the facility; therefore no policies and procedures are in place that specifically addresses ICE. This is no fault on the facility. Prior to accepting ICE detainees, the facility will integrate those policies and procedures from another IGSA facility, Pine Prairie Correctional Center that is also being managed by Warden Copes. ICE will conduct a follow-up review.
