Intensive Probation Act

Summary

This Act would require all drug offenders who otherwise would have received a sentence to participate in a probation program, to participate in an intensive probation program, and would offer judges the option of placing other specified types of offenders who would otherwise be sentenced to participate in a probation program, in an intensive probation program.

The Act would establish requirements for participation in an intensive probation program and stipulate the conditions for expulsion from the program. Participants who are expelled from the program would be required to serve out their term of incarceration.

ALEC EXPOSED

"ALEC" has long been a secretive collaboration between Big Business and "conservative" politicians. Behind closed doors, they ghostwrite "model" bills to be introduced in state capitols across the country. This agenda-underwritten by global corporations-includes major tax loopholes for big industries and the super rich, proposals to offshore U.S. jobs and gut minimum wage, and efforts to weaken public health, safety, and environmental protections. Although many of these bills have become law, until now, their origin has been largely unknown. With ALE ERPOSED, the Center for Media and Democracy hopes more Americans will study the bills to understand the depth and breadth of how big corporations are changing the legal rules and undermining democracy across the nation.
