Interview with inmate:

BORROWDALE, Terry # 859891

Unit 6A - 207

Inmate claims he has already spoken to a Captain Garcia regarding the incidents of 07-20-2004. He claims that he was in the West yard a/a 19:00 hrs, on his way to medical. He ended up around the basketball court with the "guys" next door (206). He noticed a group of Blacks in the middle of the baseball field, Hispanics were in the bleachers, and the Whites were grouping by the weight pile and basketball court. He also noticed 4 or 5 officers with cameras, so he and his cell mate started walking toward the kitchen, and eventually sat down in front of the greenhouse, where he saw a window in Unit 2 being broken. BORROWDALE says he saw a group of inmates on second base, and another group by the fence. He heard the order to clear the yard, and someone, (possibly BORROWDALE) said "don't separate your self from the rest". Inmate said he remained in the yard. He claims he watched a group of 3 inmates, two White and one Black breaking off parts of building 6. It was at this point, I advised the inmate of his rights, which he waived. Inmate BORROWDALE claims that neither he nor any of the inmates he was with had any involvement with staff. A/a 20:30 hrs, BORROWDALE states he led a group of inmates back to the fence and told them to stay there so the cameras could see them. The inmate also states he helped a black kid who was being held against the wall on the left side of the building by telling inmates to leave him alone. He also claims to have tried to keep things together. The inmate says he had a lot more information, and said he would talk to someone about what else had happened. End of interview.

- NOTE: This inmate may have additional information. He was referred to a CID investigator for follow-up.

This is the only pod that missed the destruction. He did say that there has been a lot of tension among the inmates and there is a feeling of division created by CCA because of the separation of inmates from Wyoming, Washington and Colorado. He complains about the quality of food in the chow hall. He said he did not recognize anyone as they all had towels in their faces and hats on their heads.

INVESTIGATIVE REPORT

CONFIDENTIAL

DATE: July 22nd, 2004

TO: Associate Warden Harlan

FROM: Lt. Greg Guzzo, TCF Intelligence Officer 

SUBJECT: Jared ADAMS #118432

During an interview in regards to the incident that took place at CCCF on the 20th of July 2004, I, Lt. Guzzo interviewed inmate ADAMS #118432 and he explained to me that he was in the yard when it all started and he observed numerous Colorado and Washington inmates grouping up in the ball field, some cop jumped in the middle to separate them and some other police came out and got him out of the grouping, I think this guy said something to upset them because as these officers entered the building these guys went crazy climbing over the fence to the weight pile and throwing weights and weight bars over the fence at this time everyone that was involved started running around and breaking stuff, the police kept calling over the PA to lock down so I went up to my room and seen a group of Hispanics (SURENOS) enter the pod and go up to inmate LUJAN's cell (someone had paper work that his guy was a "snitch") and start a fire in front of his door as he exited his cell they started kicking, and punching him I also seen them stab him several times after the beat him for some time they threw him over the railing on to the ground when they got to him at on the ground floor they started hitting him with the television, the microwave and some things that were laying on the floor. I also heard that some other inmates were upset because earlier in the day (July 20th, 2004) some cops beat some guy up because he didn't want to clean a case managers office, this isn't the first time that this happened down there check on the KYLE BOOHER #116926 CASE this same stuff happened to him and now he is in segregation.

On July 26, 2004 at approximately 16:55, this reporting Investigator Jay L. Kirby, interviewed inmate REED, KENNETH #80515 DOB 10/11/62 about the disturbance at the Crowley Correctional Facility on 7/20/2004.

REED said he was assigned to living unit 1C 3321 and had been there for about one and one half years.

REED stated the issue at C.C.C.F. surrounded the quality of food, the length of count times to clear and yard time. Due to the length of count time it reduced the amount of yard time.

During the time of the disturbance REED was in his cell. HE saw the inmates come into the living unit and tear things up but couldn't recognize any of them. REED also saw inmates access the fence area by unit one and come in the emergency door of the unit.

REED boxed all his property to keep it from getting damaged from the water. REED left the cell for a period of time to call his wife and let her know "what was going on". Returning to his cell, he waited for staff to arrive. When staff arrived he was escorted to the yard.

On July 27, 2004 at approximately 12:10 p.m. , this reporting Investigator Jay L. Kirby, interviewed inmate FRENANDEZ, JOSE, #121677 DOB 01/24/67 about the disturbance at the Crowley Correctional Facility on 7/20/2004.

Fernandez was assigned to living unit 1 B 3220.

FERNANDEZ stated 60% of the issues in CCCF were related to staffing issues such as interpersonal skills. Issues with the food to include, quality and quantity were noted. When the Washington inmates came to the facility it only increased the tension due to the riot that happened last time they came to Colorado. On the morning of 7/20/04 there was a use of force incident that dealt with a Washington inmate. Rumors through the facility said the inmate was "beat in the face" while he was restrained.

On the same date 7/20/04 at approximately 7:00 pm FRENANDEZ was in the yard and saw an inmate break the glass in living unit 2 with a weight. An announcement was made for all inmates to return to their living units. FERNANDEZ went over to the east side of the facility due to the incident growing in the west yard. On the east side he gathered with some other inmates until staff came and told them to lie down.

On July 26, 2004 at approximately 2:46 p.m., this reporting Investigator Jay L. Kirby, interviewed inmate GUTIERREZ, JOSEPH S., #114614 DOB 06/14/62 in regard to the disturbance at the Crowley Correctional Facility on 7/20/2004.

GUTIERREZ said he had been at C.C.C.F., Unit 1A 3127, since the beginning of 2003. During this time he said the facility had been understaffed. When counts were made there was only one Officer counting and the counts took over one hour to clear. Additionally GUTIERREZ said it was rumored there would be some problems when the additional Washington inmates arrived.

On the evening of July 20, there was a group of inmates that entered the pod and began to "trash the unit".

When that happened GUTIERRZ packed his property and waited for staff to arrive.
