

U.S. Department of Justice

Criminal Division

Washington, D.C. 20530

CRM-200900732F

MAR 3 2010

Mr. James Tucker Mr. Shane Witnov Electronic Frontier Foundation 454 Shotwell Street San Francisco, CA 94110

Dear Messrs Tucker and Witnov:

This is an interim response to your request dated October 6, 2009 for access to records concerning "use of social networking websites (including, but not limited to Facebook, MySpace, Twitter, Flickr and other online social media) for investigative (criminal or otherwise) or data gathering purposes created since January 2003, including, but not limited to:

- 1) documents that contain information on the use of "fake identities" to "trick" users "into accepting a [government] official as friend" or otherwise provide information to he government as described in the Boston Globe article quoted above;
- 2) guides, manuals, policy statements, memoranda, presentations, or other materials explaining how government agents should collect information on social networking websites:
- 3) guides, manuals, policy statements, memoranda, presentations, or other materials, detailing how or when government agents may collect information through social networking websites;
- 4) guides, manuals, policy statements, memoranda, presentations and other materials detailing what procedures government agents must follow to collect information through social-networking websites;
- 5) guides, manuals, policy statements, memorandum, presentations, agreements (both formal and informal) with social-networking companies, or other materials relating to privileged user access by the Criminal Division to the social networking websites;
- 6) guides, manuals, memoranda, presentations or other materials for using any visualization programs, data analysis programs or tools used to analyze data gathered from social networks;

- 7) contracts, requests for proposals, or purchase orders for any visualization programs, data analysis programs or tools used to analyze data gathered from social networks.
- 8) guides, manuals, policy statements, memoranda, presentations, or other materials describing how information collected from social-networking websites is retained in government databases or shared with other government agencies."

While processing your request, we located one record totaling 33 pages. After careful review of this document we determined to release this item in part. We are withholding portions of the record pursuant to the exemption in 5 U.S.C. 552(b)(6)which permits the withholding of personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. The withheld material consists of work telephone numbers and e-mail addresses of DOJ attorneys.

We will continue to search for any additional documents that may be responsive to your request. We estimate that it make take approximately fourteen days to complete the processing of your request.

Although your FOIA request is the subject of litigation, I am nonetheless required by regulation to inform you that you have a right to an to an administrative appeal of this partial denial of your request. Your appeal should be addressed to: The Office of Information Policy, United States Department of Justice, 1425 New York Ave., NW, Suite 11050, Washington, DC 20530-0001. Both the envelope and the letter should be clearly marked with the legend "FOIA Appeal." Department regulations provide that such appeals must be received by the Office of Information Policy within sixty days of the date of this letter.

Sincerely,

Catherine Gonzalez Gallego Far Rena Y. Kim, Chief

Introduction to Social Networking POPULARITY IN THE UNITED STATES

Most-visited websites in the U.S. (August 2009)

- 1. Google
- 2. Yahoo
- 3. Facebook
- 4. YouTube
- 5. MySpace

13. Twitter

27. LinkedIn

Source: Alexa.com - August 12, 2009 list of Top 100 websites in United States.

Introduction to Social Networking THE BASICS

Most social-networking sites allow users to:

- Create personal profiles
- Write status updates or blog entries
- Post photographs, videos, and audio clips
- Send and receive private messages
- Link to the pages of others (i.e., "friends")

How can LE obtain data from these sites?

- Some info may be public
- Use ECPA to get info from providers
- Undercover operations?

Introduction to Social Networking UTILITY IN CRIMINAL CASES

Evidence from social-networking sites can

- Reveal personal communications
- Establish motives and personal relationships
- Provide location information
- Prove and disprove alibis
- Establish crime or criminal enterprise

Also: instrumentalities or fruits of crime.

AGENDA

Introduction to Social Networking

Additional Legal and Practical Issues

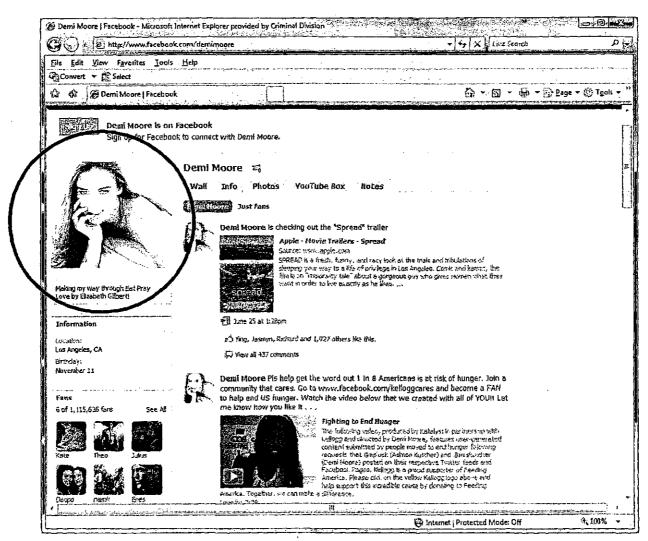

Overview of Key Social Networking Sites FACEBOOK

Founded in 2004, primarily catering to students Now over 250m active members worldwide Over 10b photos in Oct 2008; adds over 1b monthly Applications run on Facebook platform True names encouraged but not guaranteed Privacy model is highly granular; present different information to different groups or individual users Messaging includes mail, real-time chat, "wall" Now used in private background checks **Koobface – virus/worm vector**

Adam Macer
Alex Higham
☐ Alex Tarling 🐣
Tag Cancel

Overview of Key Social Networking Sites FACEBOOK

Overview of Key Social Networking Sites GETTING INFO FROM FACEBOOK

Data is organized by user ID or group ID

Standard data productions (per LE guide):

Neoprint, Photoprint, User Contact Info,
Group Contact Info, IP Logs

HOWEVER, Facebook has other data available.

Often cooperative with emergency requests.

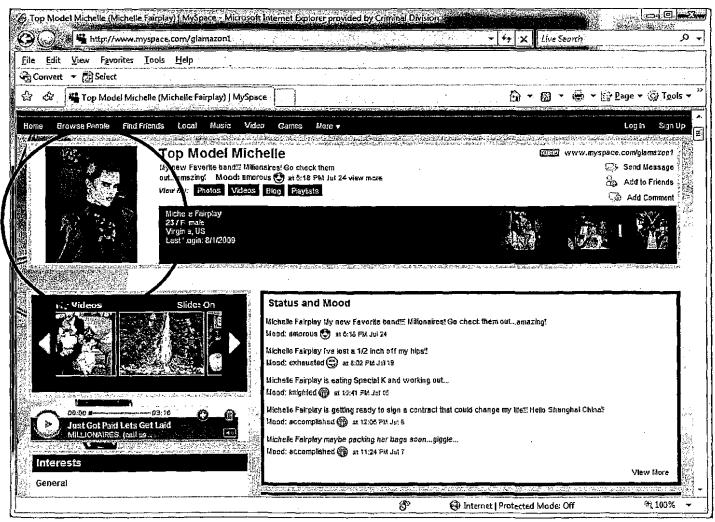

Overview of Key Social Networking Sites MYSPACE

Founded 2003, now owned by Fox Interactive Media 2006: Most popular SN; passed by Facebook in 2008 Currently tens of millions of active users monthly True names less encouraged than Facebook Messaging through messages, chat, friend updates Application platform rolled out early 2008 Young user base, history of child safety concerns Privacy is currently less granular than Facebook

Isabelle Wonders

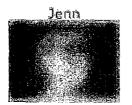

Acceber

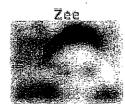

trice trice

jennifer

babygirl nieves

Overview of Key Social Networking Sites GETTING INFO FROM MYSPACE

Many profiles have public content.

Data is organized by FriendID – see LE guide.

MySpace requires a search warrant for private messages/bulletins less than 181 days old

Also considers friend lists to be stored content

Data retention times

User info and stored files – indefinitely IP logs, info for deleted accounts – 1 year

Overview of Key Social Networking Sites **TWITTER**

Market leader in "micro-blogging"
Began in mid-2006 as "status message" service
Ubiquity and ease of updating, but limited space
Breaking news, real-time updates: USAir, Iran
Most multimedia handled by 3d party links
Simplified privacy model: updates public or private
Direct messages are private; sender can delete
Short URLs used to serve malicious links and code

Overview of Key Social Networking Sites **TWITTER**

Overview of Key Social Networking Sites GETTING INFO FROM TWITTER

The good news

- Most Twitter content is public
- Private messages kept until user deletes them

The bad news

- No contact phone number
- Only retain last login IP
- Will not preserve data without legal process
- Stated policy of producing data only in response to legal process (i.e., no 2702)
- No Law Enforcement Guide

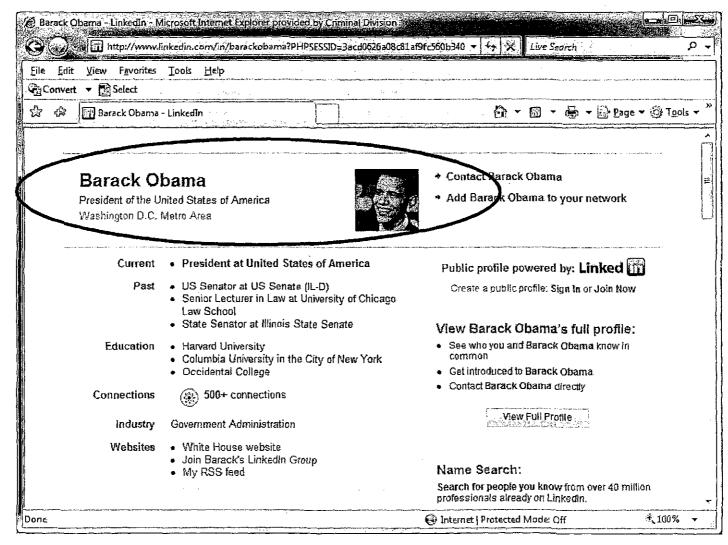

Overview of Key Social Networking Sites **LINKEDIN**

Business-focused with enforced limits to interaction
Profiles focused on education and work experience
Use for criminal communications appears limited
But can be used to identify experts
Can check background of defense experts
Privacy model similar to Facebook
Profile information is not checked for reliability

Overview of Key Social Networking Sites LINKEDIN

AGENDA

Introduction to Social Networking

Overview of Key Social Networking Sites

Legal and Practical Issues FEDERATED IDENTITY ISSUES

- Social networking sites increasingly adopting federated identity schemes
 - OpenID, Facebook Connect
- Facebook, MySpace, Yahoo!, and Google act as identity authenticators "Single Sign-In" model
- Example: A user can log in to a Facebook account using Google credentials
 - After a link is established between two accounts, Google will check and vouch for identity of its user
 - Authentication information split from activity information
 - In turn, a Facebook login may be used to authenticate to sites using "Facebook Connect"
- If attribution is necessary, must determine identity provider – not simply the domain.

Introduction to Social Networking TERMS OF SERVICE / PRIVACY POLICIES

- Social networks have extensive terms of service and privacy policies
 - Most permit emergency disclosures to LE
 - All specify exceptions to respond to legal process and protect service against fraud/damage
- U.S. v. Drew can failure to follow TOS render access unauthorized under 1030?
 - Employment policy cases tend to say yes
 - But concerns that transforms TOS into private criminal code for site misconduct

Legal and Practical Issues DOES THE PPA APPLY?

- Growth of social networks raises questions of breadth of PPA
 - Is Facebook/Twitter a "similar form of communication" to a newspaper, book, broadcast? (Ashton Kutcher? CNNbrk? Iran?)
 - No easy answers, but look to intent to communicate news to sizable audience
 - In many cases, Guest v. Leis rule will be sufficient; CCIPS can help with analysis
- Congress continues to examine media shield

Legal and Practical Issues UNDERCOVER OPERATIONS

Why go undercover on Facebook, MySpace, etc?

- Communicate with suspects/targets
- Gain access to non-public info
- Map social relationships/networks

Undercover operations after *U.S. v. Drew*

 If agents violate terms of service, is that "otherwise illegal activity"? Releve ex.5 AUP

Legal and Practical Issues WITNESSES & SOCIAL NETWORKS

Many witnesses have social-networking pages

- Valuable source of info on defense witnesses
- Potential pitfalls for government witnesses

Knowledge is power

- · Research all witnesses on social-networking sites
- Discovery obligations?

Advise your witnesses:

- Not to discuss cases on social-networking sites
- To think carefully about what they post

Legal and Practical Issues OTHER COURTROOM ISSUES

Social networking and the courtroom can be a dangerous combination

- · Use caution in "friending" judges, defense counsel
- · Warn jurors about social-networking sites

Social networking + mobile devices = real-time updates on courtroom events
