

Possible Heat-Related Deaths Calendar Years 2005 - 2012 (Through July 6, 2012)

Name	TDCJ #	Unit of Assign.	Contributing Conditions	Date of Death	Autopsy Information
1. Shriver, James	390315	Byrd	Hypertension, Schizoaffective Disorder, Hepatitis C, Asthma, Ischemic Heart Disease	August 8, 2007	"... the cause of death is cardiac arrhythmia with likely temperature dysregulation . . ."
2. Robles, Dionicia	1443175	Byrd	Psychosis, Cardiomegaly, Mood Disorder, Obesity	August 13, 2007	"Cause of Death: Heat related death due to environmental factors and phenothiazines."
3. McCollum, Larry	1721640	Hutchins	Hypertension, Cardiac Hypertrophy, Morbid Obesity	July 22, 2011	11-2-11 Final Autopsy: "...died as the result of hyperthermia."
4. Hudson, Douglas	1722504	Gurney	Hypertension, Heart Disease Cardiomegaly, Atherosclerosis	July 25, 2011	10-6-11 Final Autopsy: "...it is our opinion that the cause of death is environmental hyperthermia (heat stroke)."
5. Meyers, Thomas	680515	Coffield	Hypertension, Hypothyroidism, Schizophrenia	August 2, 2011	3-19-12 Final Autopsy: "...cause of death...is hyperthermia."
6. Webb, Robert	1569761	Hodge	Hepatitis C, Depression, Atherosclerosis, Toxic Levels of Citalopram	August 4, 2011	2-27-12 Final Autopsy: "...environmental-induced hyperthermia is likely a major factor...However, the...toxic level of citalopram cannot be ruled out as a significant (and possibly major) factor."
7. Martone, Michael	1395315	Huntsville	Hypertensive Atherosclerotic Cardiovascular Disease, Seizure Disorder, Depression	August 8, 2011	11-15-11 Final Autopsy: "Hyperthermia"
8. Togonidze, Alexander	1578039	Michael	Hypertension, Diabetes Mellitus	August 8, 2011	6-28-11 Final Autopsy: "...hyperthermia is the cause of death...Chronic diseases, medications and environmental conditions are ...contributory factors."
9. Cook, Charles	1457546	Hodge	Schizoaffective Disorder, Mental Retardation, Cardiomegaly, Atherosclerosis	August 8, 2011	2-27-12 Final Autopsy: "...cause of death is hyperthermia..."
10. Marcus, Kelly	1128380	Connally	Hypertension, Obesity, Cardiomegaly	August 12, 2011	9-23-11 Final Autopsy: "...most likely environmental hyperthermia-related classic heat stroke though toxicology tests and vitreous humor tests are still pending."
11. James, Kenneth	1726849	Gurney	Hypertension, Depression, Cardiomegaly	August 13, 2011	9-23-11 Final Autopsy: "...most likely environmental hyperthermia-related classic heat stroke though toxicology tests and vitreous humor tests are still pending."
12. Alvarado, Daniel	1517660	Beto	HIV+ on treatment, Schizophrenia	August 20, 2011	10-27-11 Final Autopsy: "The cause of death is judged to be environmental hyperthermia..."
