Scottsdale, AZ 85260

Dear Ms. Hanrahan

Recently the Phoenix Police Department's Professional Standards Bureau conducted an administrative investigation of an incident in which one of your air tasers was deployed. One very important aspect to our investigation was an accurate number of times the taser was discharged.

The taser was examined by your company and because of the computer chip built into the taser, your technicians were able to determine the exact number of times our officer discharged the taser.

Thank you very much for the assistance and your prompt response.

Sincerely,

HAROLD L. HURTT
POLICE CHIEF

Thomas V. Lannon, Commander
Professional Standards Bureau
