

Volunteer Videos

In this months' feature video, the entire Springfield SWAT team takes a hit from the ADVANCED TASER M26! Major Steve Ijames wanted to know what would happen if 8 - 10 officers locked arms and one TASER probe was placed on the individuals at each end of the line. Watch the video to see the results. . .

[See the video: 2.1 Mb MPEG 1 File](#)

[Low resolution: 266 Kb MPEG 1 File](#)

Remember, if both probes hit a subject, the charge will not transfer to another officer who grabs them. In the video here, we forced the energy through all of the volunteers by placing one probe at each end of the line.

The Compilation Video (approx. 30 volunteers) is also available here: [See the video: 34 Mb file.](#)

If you have video of either volunteers or real world use of the ADVANCED TASER, please send us a copy at:

TASER International, Inc.

7860 East McClain Drive, #2

Scottsdale, AZ 85260 USA

And we'll share your video with other law enforcement officers here at **TASER.com**.
