Field Office Director

Seattle Field Office

FROM:

John P. Torres

Acting Director

SUBJECT:

Northwest Detention Center Annual Review

The annual review of the Northwest Detention Center Contract Detention Facility conducted June 20-22, 2006, in Tacoma, Washington has been received. A final rating of **Superior** has been assigned. No further action is required and this review is closed.

The rating was based on the Reviewer-In-Charge (RIC) Summary Memorandum and supporting documentation. The Field Office Director must now initiate the following actions in accordance with the Detention Management Control Program (DMCP):

- 1) The Field Office Director, Detention and Removal Operations, shall notify the facility within five business days of receipt of this memorandum. Notification shall include copies of the Form G-324A, Detention Facility Review Form, the G-324A Worksheet, RIC Summary Memorandum, and a copy of this memorandum.
- 2) The Field Office Director shall schedule the next annual review on or before June 22, 2007.

Should you or your staff have any questions regarding this matter, please contact Timothy L. Perry, Deputy Assistant Director, Detention Management Division at (202) 732

SUBJECT:	Northwest Detention Center Annual Review
Headquarters Detention Rev (CDF) in Tacoma, Washing	

Type of Review

This review is a scheduled Headquarters Review, which is performed to determine overall compliance with the ICE National Detention Standards (NDS). The facility received a previous rating of "Good" during the July 2005 review.

Review Summary

The Northwest Detention Center (CDF) is currently accredited by the American Correctional Association (ACA), the National Commission on Correctional Health Care (NCCHC) and the Joint Commission on Accreditation of Health Organizations (JCAHO.)

Standards Compliance

The following information is a summary of the standards that were reviewed and overall compliance that was determined as a result of the 2005 and 2006 detention reviews:

RIC Issues and Concerns

Admission and Release

It is a safety concern that detainees are issued open-faced safety razors during the intake process. The blade on the razor is not covered with a protective coating and can be easily removed. It is recommended that a different type of razor be purchased and used.

Signatures are not being recorded on the Alien Booking Records, I-385 cards, only star numbers. Signatures are required on all I-385 cards.

Release paperwork should contain a detainee signature block indicating that the detainee has received back his/her property. The facility staff did not have on hand or have knowledge of the form I-387, Report of Detainees Missing Property, which is necessary if a newly arrived detainee claims his/her property has been lost or left behind. These issues of concern are small deficiencies within the standard and do not make the standard deficient as a whole.

Detainee Telephone Access

The facility was non-compliant with two elements of the Detainee Telephone Access Standard Review Worksheet. When the telephones were checked several of the special access numbers for the consulates were not working. Also the facility did not have a procedure to record daily inspections of the telephones. This was brought to the facility's attention and the facility was in the process of checking the consulate numbers. The facility will coordinate with PCS to reprogram the correct numbers and the facility will post a corrected list of special access numbers in all of the pods. While these are issues of concern they are small deficiencies within the standard and do not make the entire standard deficient. The facility was taking immediate action to correct the problem.

Classification

Level one and level three detainees were observed in the hold rooms together. The detainees were already classified and assigned to separate housing assignments but were brought from their pods and placed in the same hold room together to wait for an interview with their deportation officer. This is a security and safety concern because the officers assigned to the hold rooms do not have constant sight and sound of the hold rooms if they walk to a different side of the processing area or are busy processing detainees for admission and release. The detention standards are not specific on classification in hold rooms and while this is an issue of concern it does not make the facility deficient in the classification standard.

Memorandum for John P. Torres Northwest Detention Center Contract Detention Center Annual Review Page 3

Detention Files

Two detention files are being maintained, one by GEO and one by ICE. One file should be maintained for accuracy. The detention files maintained by GEO did not have the correct release information on the I-385 cards. Detention files are not being noted as closed and ready for archive. The detention files are also missing the work assignments and training records although they are maintained in the food service area. These are minor deficiencies within the standard and do not make the entire standard deficient.

Staff-Detainee Communications

Detainees are informed of their right to communicate with staff, but this information should also be included in the Detainee Handbook. Staff are making visits to pods to answer questions to kites but do not have a logbook to record their visits. The staff should incorporate a logbook to record staff detainee communication visits regarding not only responses to kites but also questions and responses to conditions of confinement. These are small issues of concern and do not make the entire standard deficient.

Best Practices

Access to Medical Care-Best Practice

The Medical Staff has taken the initiative to include a section regarding Stress and Detention and Dental Hygiene into the Detainee Handbook. The section regarding Stress and Detention explains possible feelings that detainees may feel in detention, reasons, and helpful suggestions for handling stress in the detention setting. Medical staff is very proactive in identifying potential problem areas and finding ways to help prevent them from occurring. The medical department has a very impressive orientation and annual training program for their staff.

Use of Force-Best Practice

The review team witnessed a calculated use of force while at the facility. The staff was highly trained, patient, and professional. The Use-of-Force Team technique was used under staff supervision, medical care was present before, during, and after the calculated use of force. The detainee's medical records were checked for contra-indications before the calculated use of force. The use of force was recorded and all members of the use of force team properly identified themselves. Officers made all attempts to try to resolve the situation without resorting to force.

Significant Incident Summary Worksheet

For ICE to complete its review of your facility, the following information <u>must be completed</u> prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

		NDENCE		

Policy: All facilities will ensure that detainees send and receive correspondence in a timely manner, subject to limitations required for the safety, security, and orderly operation of the facility. Other mail will be permitted, subject to the same limitations. Each facility will widely distribute its guidelines concerning correspondence and other mail.

Components	Yes	No	Remarks
The admission process includes informing detainees of the facility's correspondence and other mail policy.			
Notification of the policy is made in the detainee handbook in the detail required to comply with the ICE standard.			
Each detainee receives a detainee handbook upon admittance.	\boxtimes		
The rules for correspondence and other mail are posted in each housing or common area.	\boxtimes		
The facility provides key information in languages other than English; In the language(s) spoken by significant numbers of detainees. List any exceptions.			
Incoming mail is distributed to detainees on the day it is received by the facility and in no case more than 24 hours after it is received.	\boxtimes		
Outgoing mail routinely delivered to the postal service within one day of its entering the internal mail system (excluding weekends and holidays).			
Staff records all priority, overnight, and certified mail delivered by the U.S.P.S. and all deliveries from commercial alternatives to the U.S.P.S.			
Staff do not open and inspect incoming general correspondence and other mail (including packages and publications) without the detainee present unless documented and authorized by the Officer-In-Charge or equivalent for prevailing security reasons.	×		
Staff does not ever read incoming general correspondence without the OIC's prior approval.	\boxtimes		
Staff does not inspect incoming special Correspondence for physical contraband or to verify the "special" status of enclosures without the detainee present.	×		
Staff is prohibited from reading or copying incoming special correspondence.			
Staff are only authorized to inspect outgoing correspondence or other mail without the detainee present when there is reason to believe the item might present a threat to the facility's secure or orderly operation, endanger the recipient or the public, or might facilitate criminal activity. Inspection of outgoing special correspondence is done in the presence of the detainee and for contraband only.			
Correspondence to a politician or to the media is processed as special correspondence and is not read or copied.	\boxtimes		
The official authorizing the rejection of incoming mail sends written notice to the sender and the addressee.	\boxtimes

DETAINEE GRIEVANCE PROCEDURES

Policy: Every facility will develop and implement standard operating procedures (SOPs) for addressing detainee grievances in timely fashion. Each step in the process will occur within the prescribed time frame. Among other things, a grievance will be processed, investigated, and decided (subject to appeal) in accordance with the SOPs; a grievance committee will convene as provided in the SOPs. Standard procedure will include providing the detainee with a written response to any formal grievance, which will include the basis for the decision. The facility will also establish standard procedures for handling emergency grievances. All grievances will receive supervisory review. Reprisal against the filer of a grievance will not be tolerated.

Components	Yes	No	Remarks
Written procedures provide for the informal resolution of oral grievances. If yes, the detainee has up to five days within which to make his/her concern known to a member of the staff.	\boxtimes

Remarks: (Record significant facts, observations, other sources used, etc.)

*There were several records reviewed where Special Needs Forms(SNF) were not being utilized to communicate the need to move a detainee to Medical for suicide watch or hunger strike. The intent is there but there are complexities with the electronic medical record. USPHS electronic medical records has 2 areas where the SNF is documented, one area where the actual form is printed out and another area where it allows the SNF information to pop up on the initial blue cover page. It appears that staff are not using the area where the actual SNF form is printed out and is instead using the second area and then printing out this form to communicate the information. H.S.A. already plans to do more electronic medical record education in this area. Please see attached sheets of records reviewed.

*FOIA is utilized to release medical information to detainees. Copies of FOIA were not being forwarded to ICE to be placed in the detainee A-File but this was fixed immediately and copies of FOIAs were being made during the inspection to be sent to ICE.

*Medical staff is very proactive in identifying potential problem areas and finding ways to help prevent them from occurring. They have a very impressive orientation and annual training program for their staff that would be a great resource to others.

*There was evidence of a great working relationship between all three agencies ICE, USPHS and GEO. Northwest Detention Center exemplifies what can be achieved with good communication, cooperation and the team approach.
